Моторизованный насос для гидроиспытаний

MOTORIZED HYDRO TEST PUMP

PressureJet

Motorized Hydro Testing Pump

Product Specifications

Driver type

Direct Couple / Belt & Pulley

Choice of Electric Motor

Non Flame Proof/ Flame Proof, Three Phase, Voltage as per customer's specs.

Tank Option

With Water Tank / Without Water Tank.

Mounting Option

Trolley mounted, Skid mounted

Electric Control Panel Option

With or Without, Automatic Pressure Controller

RPM

For 50 Hz - 1450 RPM and 60 Hz - 1740 RPM

Power Supply

3 phase

PressureJet also offers **hydrostatic test pump** with pre-filling cum pre-pressurizing cum pressure building system. For large volume of **hydro test pumps** **Combine Hydro Testing Unit** is most preferred solution. This **hydrostatic pressure test pump** is compact, efficient & cost effective, available in different combinations of pressure and flow. The unique **Automatic Hydro Test Controller** is a standard feature of this system. However, automatic hydro test controller can be supplied separately to improve efficiency and avoid operator mistakes.

Though theoretically water is considered as non compressible fluid, it requires considerable amount of feeding to raise the pressure.

Q.1.- "How much water is to be injected to raise certain pressure?"

Q.2.- "What time will it take to reach up to desire pressure?" are typical questions, asked by majority customers who are inquiring about **hydrotest pump** or **hydrostatic test pumps**. It depends upon the following

- Initial pressure from which we start feeding the water
- Total Volume of the equipment
- Required pressure for the testing
- Time available in minutes/ hours.

Customer should furnish the above information and leave it to us for the right selection of **hydrostatic pressure test pump**.

We would like to inform you that PressureJet technical team is well trained to select right (here, optimum) **hydro test pump** for right application. Therefore, rest assured that they will never mislead you.

40 BAR TO 100 BAR HYDRO TEST SYSTEM

Pressure in bar	Flow Rate in LPM	Motor HP	Model
100	91	25	PA32
	110	30	PA40
	139	40	PA45
	175	50	KB45
	215	60	KB50
	367	100	KD60
	374	100	KD55
	40	10	XLT4217IR
